

My family and I are avid supporters and listeners of K-LOVE Radio. This is a unique, quality, Christian station which serves our needs daily by encouraging us in our faith, commercial free. We have been faithful listeners for many years. This station is of public interest in this community by serving Christians and offering wholesome and uplifting music to the community at large. We fear that if it is displaced by a LPFM station, the community will have lost a family orientated, pure station where we do not have to screen either the music or the DJ's. So much on the airwave is not appropriate for families concerned with raising children with God fearing morals and values. Please keep K-LOVE on the air!!
